

Leave Thornbury, heading North on the Old Gloucester Road (B4061), past the Anchor Public House, take a left turn in to Butt Lane heading towards Oldbury (Power Station).

Take first turn right on S bend in to Morton Street, take care here, as you are turning across traffic on a fast blind bend. Travel up this lane and at the finger post on grass island turn left, (signed Duckhole). Stay on this lane / track keeping to the right where the lane forks, again take care as part of this track follows a very deep unfenced ditch on the right hand side (please don't be alarmed as this really is a track and not a tarmac road).

In approx. 1.5 miles the flying site will be on the left indicated by a sign on the fence. Parking area is through the gate at the bottom of the ramp.
